CAREER OBJECTIVE

Aspiring web developer with a strong foundation in HTML, CSS, and JavaScript, seeking to leverage my creativity and technical skills to design immersive and user-centric web experiences. Committed to staying at the forefront of web development trends and delivering innovative solutions that drive digital success for organizations.

PROJECTS

SPOTIFY CLONE

Individual

Aug 2023- Sep 2023

Spotify Clone is a web app developed using HTML, CSS, and JavaScript. It recreates Spotify's interface and features, allowing users to browse, search, and play songs, create playlists, and discover new music. Responsive design ensures a seamless experience on any device. Contributions are welcome!

E-COMMERCE WEBSITE

Group

June 2023- Sep 2022

Its is a fully functional website for purchasing books. It was created using HTML, CSS, Bootstrap, and vanilla JavaScript. Users can browse through a variety of books, add them to their cart, and checkout securely. The website also includes a search function and user account management.

WEATHER WEBAPP

Individual

June 2023

This project is a weather website that provides live weather updates and forecasts based on your location. Stay informed about current weather conditions, temperature, and more. Explore interactive maps, hourly/daily forecasts, and helpful insights. Stay ahead of the forecast and make the most of your day!
